The science of God is greater than all other sciences, and this spiritual technology is rationally and authoritatively explained in the 18,000 verses of *Śrīmad-Bhāgavatam*, India's sublime contribution of culture, philosophy, politics, sociology, religion and love. His Divine Grace A.C. Bhaktivedānta Swami Prabhupāda has undertaken the mighty task of rendering this supremely potent work into the English language in a complete, authoritative and scholarly manner, from the viewpoint of a fully realized spiritual master. Thus in each verse one will find new enlightenment regarding the Absolute Truth, the origin of all emanations. *Śrīmad-Bhāgavatam* is an important cultural presentation for the respiritualization of the entire human society.
